

We are excited to share some great news!

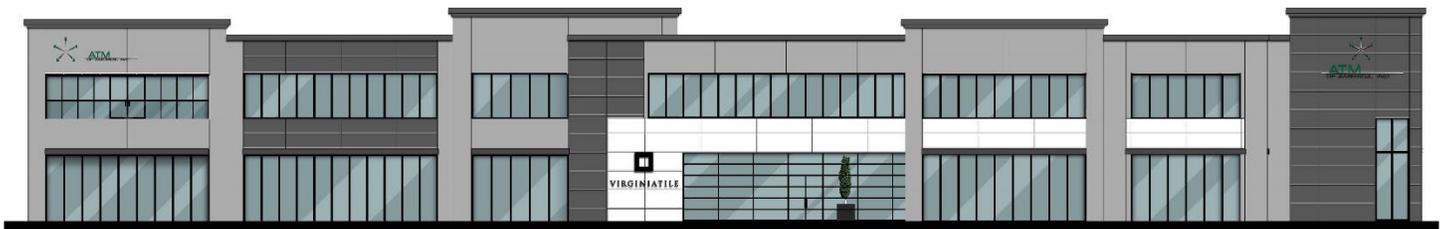

Dear friends and partners of Virginia Tile Company,

Virginia Tile is excited to share this great news with our southeast Michigan customers. Before the pandemic, we had plans to develop and open a new, state-of-the-art Showroom and Warehouse location to better serve our customers. We are proud to announce that we are moving forward with those plans!

HERE IS YOUR SNEAK PEAK OF OUR NEW SHOWROOM AND WAREHOUSE LOCATION OPENING EARLY 2021.

900 W. MAPLE ROAD between Livernois Road & Crooks Road in Troy

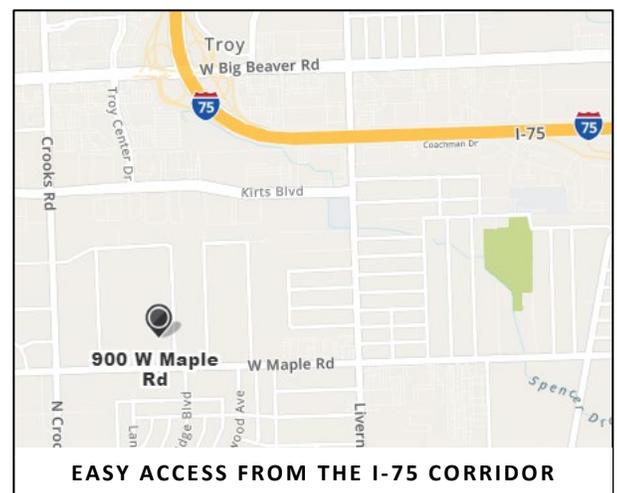

For forty years we have serviced our east and northeast Metro Detroit designer, architect and builder customers from two locations, Sterling Heights on 19 Mile Road and our suite in the Michigan Design Center in Troy. While these locations have served our customers well, it is time to offer in one location a combined experience of the best in flooring and decorative tile design selections and service for our customer's orders.

Our current locations will remain open until we transition to the new Maple Road location in early 2021. We will communicate with you well in advance about the exact timing of the transition and the grand opening celebration.

New Location in Troy, MI

- Near Troy's premier retail district including the Somerset Collection and Troy Marketplace.
- Expansive 13,250 square feet of showroom and will call service space providing a design experience second to none.
- 35,000+ square feet of warehouse space offering two bays for customer pick up adjacent to our Will Call service area.
- Contractor customers will enjoy hospitality and easy access to installation and finishing products in a comfortable and relaxing environment.

You can be certain that we have put a great deal of thought into how our new location will best serve you, our loyal customers. For more information about this exciting news contact Leslie Staniszewski, Director of Marketing at Leslie.Staniszewski@virginiatile.com.

Thank you for your continued support and we look forward to *Bringing Design to the Surface* in southeast Michigan for many more years to come.
