

ECOCARAT

Rooted in traditional Japanese mud-wall construction, ECOCARAT comprises a superbly designed selection of interior wall-finishing materials. Infused with a feel of natural material content and coloring daily scenes with magnificent spirit, ECOCARAT can create spaces that extend authentic relaxation, unmatched discernment in taste, and never-before-experienced refreshing imagery. Moreover, installation can help with moisture-regulating performance that can help regulate indoor humidity. Genuine beauty comes alive across the five senses through wise Japanese tradition.

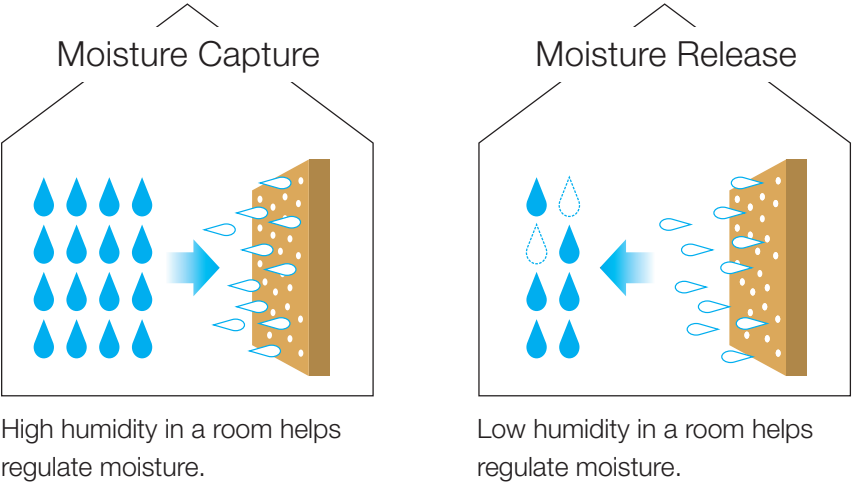

MECHANISM OF ECOCARAT

ECOCARAT has pores to catch and release air. The pore size is 1 nanometer (a millionth of 1 mm). The plentiful number of pores further helps air exchange, even when compared to diatomaceous earth.

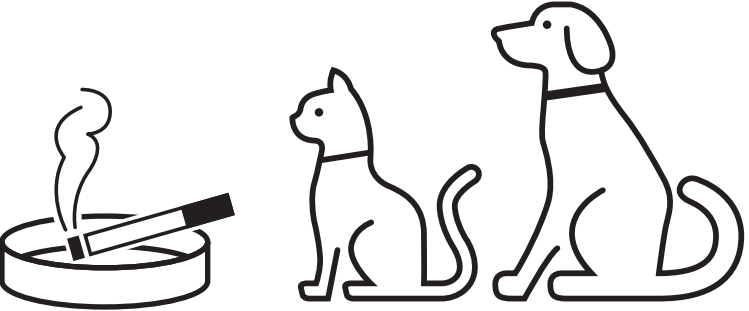

Moisture Regulation

Indoor humidity fluctuates throughout the day, according to the weather air temperature, not just between the seasons. ECOCARAT helps to regulate humidity indoors. Indoor moisture regulation works like breathing.

Deodorizing Function

Unpleasant odors from everyday living emanate from the toilet, spoiled garbage, tobacco, and pets. The microscopic pores of ECOCARAT can help manage fous odors.
