Wilsonart THINSCAPE

Style within reach. Performance without compromise

THINSCAPES PERFORMANCE TOPS

Bold. Modern. Highly durable.

THINSCAPE lets you live in style that's engineered to last.

TIMELESS DESIGN

Expertly match today's most sought-after lightly textured sheens.

INCREDIBLY STRONG

Just ½-inch thick and crafted to resist impact, abrasions, and scratches.

EASY TO MAINTAIN

Highly cleanable, stain resistant, and no sealing required — ever.

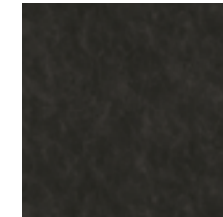

ECO FRIENDLY

Meets GREENGUARD Gold Certification's strict chemical emission limits.

THINSCAPE is an innovative composite slab material that is engineered to provide luxurious performance at a reasonable price point. Every modern design in the updated collection is easy to fabricate, easy to install, and hard to ignore.

BUMBS07CLEAR24	Hemispherical Bumper	Clear	2.2MM x 8.5MM DIA.	24 / pad	\$.67

BUMBS01CLEAR, Cylindrical Bumper: Cylindrical flat top bumper stops are commonly used to protect surfaces and prevent sliding. The flat top shape is ideal for load bearing applications as feet on the bottom of small appliances, cutting boards, or laptops. The flat top design can be used as spacers under glass tables, airflow under network equipment, and behind picture frames to protect walls.

BUMBS07CLEAR/24, Hemispherical Bumper: Commonly used for sound dampening applications. The domed shaped bumpers work best for softening cabinet doors from slamming, reducing noise, and extending the life of the cabinets. Versatile round bumpers are found on the bottom of laptop computers to prevent sliding on any surface and smaller bumper profiles are used on the inside to protect the laptop screen and keyboard when closing it. Small round bumpers are used on standoffs for glass shelves.

BUMBS33SDCLEAR, Diamond Shape Bumper: Special Soft Durometer Bumpers are designed to absorb energy from closing cabinet doors and drawers. These parts have been specifically engineered to provide the quietest close available for any cabinet door.

Simply peel and stick the bumper feet to your required location. These bumpers can be used everywhere and the application possibilities are endless.
